

Star 6

How to make star 6

This star is made using the Foundation Paper Piecing method, which is not only very easy but incredibly accurate. Watch the video for the 12 Days of Christmas Day 5.

Cut 6 pieces, $7\frac{1}{2}$ " x 4" from the light fabric A (cut 3 pairs right sides together)
Templates: B1, B3, C1, C3, D1, D3

Cut 6 pieces, $4\frac{1}{2}$ " x $4\frac{1}{2}$ " from the medium fabric B
Templates: A1, A4, A5, B2, C2, D2

Cut 6 pieces, $4\frac{1}{2}$ " x $4\frac{1}{2}$ " from the dark fabric C
Templates: A2, A3, A5, B1, B3, B4

You may notice some letters and numbers are repeated, please just follow the instructions and trust the process.

Cut out the templates provided, you will need to tape a piece (highlighted) together, because we use them for sewing the star together.

Notes:

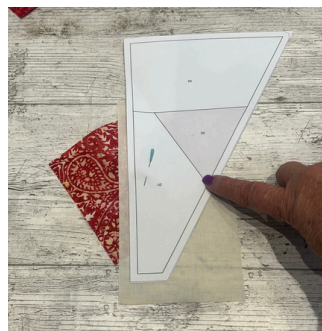

- There will be waste fabric from all these cuts, but if you are nervous or unfamiliar with FPP this is the easiest method.
- I have for this star and added photos to help you.
- This is just a guide and not my normal full pattern.
- My video will be there for you to watch at all times.

Fold all the templates along the solid lines

Place fabric right side down, trim to ¼" from the fold of template.

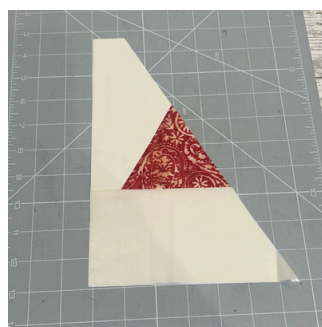

Place a medium square right side up and line up with trim line. Sew along line.

Fold back the paper and trim fabrics.

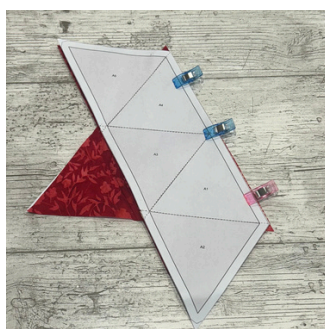

Place the 3rd piece right side up against trimmed line. Sew down the solid line.

Trimmed, do not remove the paper. Press well.

Continue sewing all the remaining shapes following this method. Use the numbers on the template to guide you with the order of sewing together. Watch the video!

Join the centre pieces together as shown.

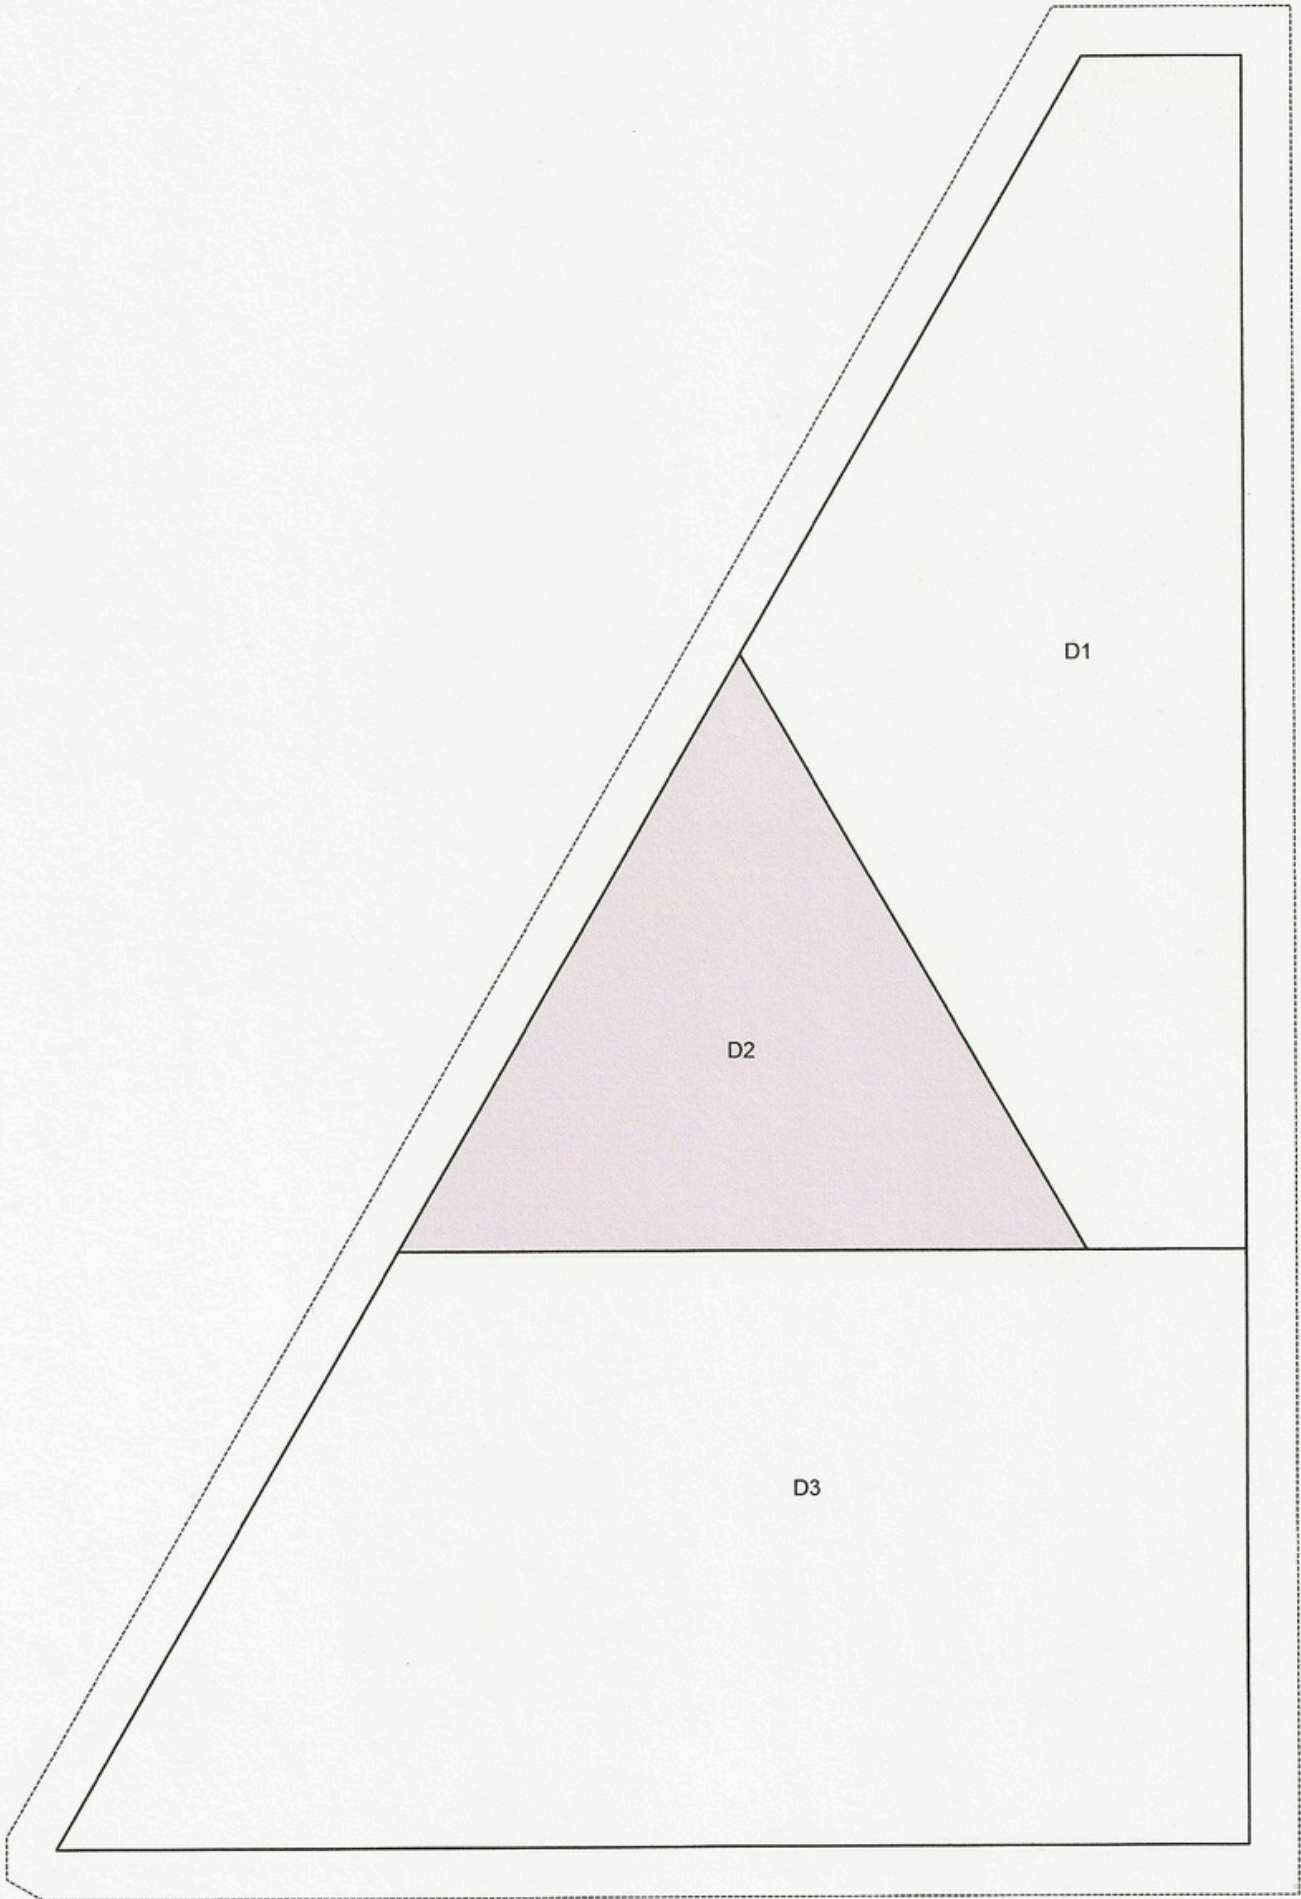

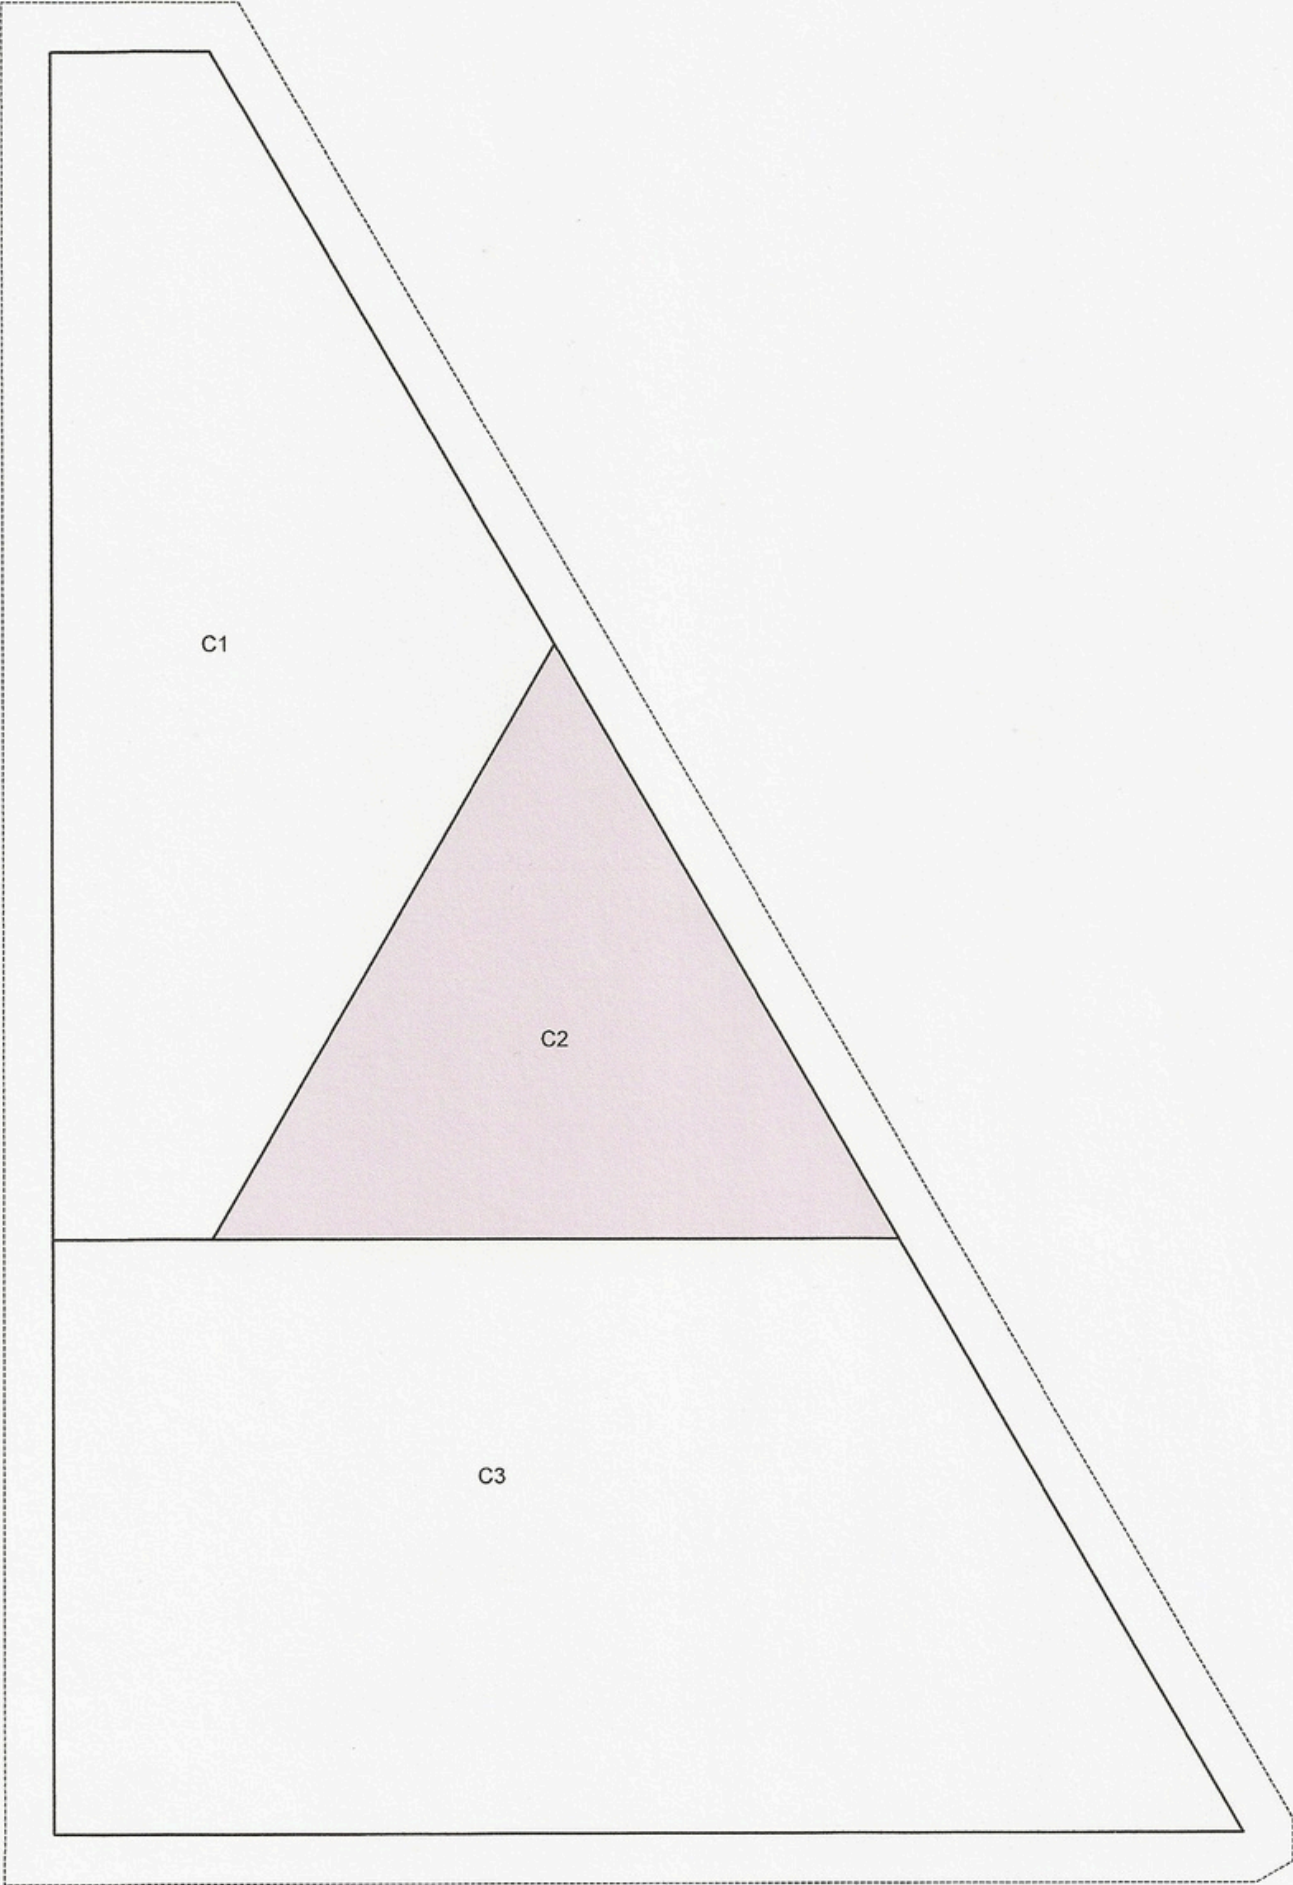

Attach both sides as shown.

Attach long top strip, as shown here for star 5.

Once all templates have been stitched together, press and remove paper from the back.
